PORTABLE CONTAINERIZED INCINERATORS

Advanced Combustion Systems' PC-Series Portable Containerized Incinerators are engineered and manufactured to provide a rugged and durable self-contained incineration system for harsh environments. Typical applications include remote sites, small villages, and marine

vessels. Optional Marine package provides *USCG and ABS approved incinerator for shipboard applications. The Marine Series Incinerators meet MARPOL MEPC.76(40) requirements as well as EPA and EU emission regulations.* Each system is equipped with an externally accessible, recessed utility bulkhead configured for quick and easy connection of fuel supply and electrical service.

FEATURES:

- Dual Chambers, Primary and Secondary
- Heavy-duty all welded construction
- High strength, durable monolithic castable refractory lining
- Fully integrated PLC control system
- Simple and reliable operation
- Modular design for easy installation
- Factory plumbed, wired, and tested prior to shipment.
- Designed and manufactured in the USA
- 5 YEAR "Total Component Warranty"

OPTIONS:

- Marine Package - USCG, ABS, MARPOL MEPC.76(40) Approved Incinerator for Shipboard Application
- Fully modulated air supply and temperature control
- Hinged/Pivot stack
- Internal or External UL Listed Fuel Tank
- Generator Set
- Modular Transport Skid

* - Dimensions can be modified to meet specific applications ‡ - Actual burning rate depends upon waste composition. † - Weight will vary depending on the options ordered.

PC-SERIES INCINERATION SYSTEMS INCLUDE...

- 20 ft. ISO Container
- Full Front and Optional Rear Access
- (M)CA-Series Incinerator
- Primary/Secondary Temperature Controls
- Bolt or Hinged Stack Sections
- Stack Roof Penetration Kit
- Stainless Steel Spark Screen/Rain Cap
- Combustion Air Damper
- Vapor Tight Light Fixtures & 120V Outlet
- Outdoor Plug-in Receptacle for Electrical Source
- Outdoor Fuel Train with Shut-Off
- High Temperature Flooring
- Primary Chamber Door Locking System (Optional)
- Load Ramp (Optional)
- Skid-Mounted Fuel Tank (Optional)
- Marine Package (Optional)

Larger systems and customizations available. Contact factory for details.

Services:

- Installation and start-up services
- Large parts inventory for immediate shipment
- Service and maintenance contracts for all makes
- Rebuilds and modifications to existing incinerators

Advanced Combustion Systems' Engineering and Testing Facilities are available for complete design and component selection. ACS can custom design and manufacture incineration and control systems to meet any specific application.

ACS, Inc. is your sole source manufacturer for complete incineration systems including waste handling, heat recovery, emission controls and monitoring.
